

The **Construction H&S Policy & Procedures** software package has been specifically designed to assist organisation working in the construction industry to comply with their duties under **UK Health & Safety Legislation**. The software offers much more than just a Health and Safety Policy. It has **9 sections** including over **150 pages** of comprehensive information, policies and procedures, which have been professionally written in Plain English, specifically for organisation working in the construction industry. The software includes:

- General Statement of Health & Safety Policy
- Health & Safety Policy
- Health & Safety Organisation & Responsibilities
- Health & Safety Arrangements & Requirements
- A wide selection of Health & Safety Procedures
- Method Statement Procedures & Pro forma's
- Risk Assessment Policy & Pro forma's
- Overview of the CDM Regulations
- Contractors (Health, Safety & Welfare) Start-up Procedures
- Selection of Miscellaneous Forms

Why do I need the software?

The **Construction Health & Safety Policy & Procedures** software offers much more than just a safety policy, it can also help you to:

- Win more contracts
- Lower your insurance premiums
- Demonstrate your competence to main/principal contractors when tendering for work
- Pre-Qualify for local authority work
- Take on larger contracts

The **Construction Health & Safety Policy & Procedures** software therefore offers companies a highly cost effective solution to the management of health and safety

Key Features Include:

- Complete Health & Safety solution written by experienced professional
- Easy to use graphical interface which requires no special training or knowledge to use
- Operates within the familiar Microsoft Office environment
- Fully customisable documents which can be added to and amended to reflect changes in legislation and company practices

Who is the software for?

Quite simply anyone who employs 5 or more people must have a **written Health and Safety Policy**, which addresses all of the key risks and hazards present in the work undertaken. The Construction **H&S Policy & Procedures** software package has been specifically designed for this purpose and is aimed at everyone from the self employed to multi-national organisations such as:

- Builders/Civil Engineering Contractors
- Groundworkers/Demolition Contractors
- Scaffolders/Roofing Contractors
- Electricians/Plumbers/Mechanical Engineers
- Shop Fitters/Painters & Decorators
- Architects/Engineers/Surveyors

This is probably the only and most comprehensive Health and Safety Policy package which has been produced specifically for the construction industry
